*Michael Castello*

March 15, 2020

Dear Soboba Tribal Member,

As the Soboba Tribal Council continues to monitor the Coronavirus COVID-19 crisis, below is an update and contingency plans we developed to mitigate this crisis.

### **Tribal Operations**

Tribal Administration departments will remain open as scheduled. The preschool is closed and Noli School is closed to students only.

### **Casino Operations**

Soboba Casino Resort will maintain operations. The casino has seen a reduction in patrons this month, specifically this week, and may continue during this crisis. Casino management continues to monitor and will make necessary operation adjustments when the time comes.

### **Emergency Preparedness**

The Tribal Council and TERC are working diligently obtaining resources.

Please be advised these contingency plans are subject to change as this crisis changes on a daily basis. We will continue to closely monitor and provide updates as they come in. If you have not done so, please download the Soboba APP as this is the quickest way to keep you updated. We are praying for the best and strongly believe prayer is powerful. Don't lose faith. Hopefully this will be over soon. The Tribal Council is here for you day and night to answer any question you may have.

Please continue to check your mail in the upcoming days. Important confidential financial information will be sent out.

Sincerely,

SOBOBA TRIBAL COUNCIL
