

STARS Communicator

Soboba Tribal Alert Response
System

The STARS Communicator! NXT

- The Communicator! NXT solution is a proven, reliable means for emergency notification.
- This program has been in place to support the Tribe for a little over two years now. As of late, the Public Safety Department has been handing out our revised forms which allow everyone to sign up for this program.

The STARS Communicator! NXT Cont.

- Soboba is mainly utilizing the mobile phone, email, SMS (text messaging) features to communicate at this time.
- The system has been divided into four different and distinct categories, which are as follows:
 - Reservation Emergency Notifications (Ex. Road Closures, Tornados, Fires...etc)
 - Community Events (Disaster Recovery Meeting, Tribal Hall Blessing)
 - Casino Events (Concerts)
 - Tribal Information (Training Programs)

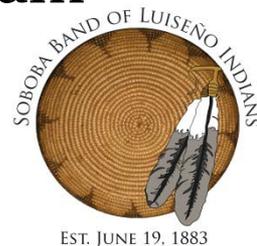

STARS Future Plans

- In the future, the IT Department plans to expand the system capabilities to allow for electronic enrollment into the STARS program via our website soboba-nsn.gov. This is something planned for Q2, but is still pending depending on cost and approval.

Form Submission Process

- If you haven't joined this program, please grab a form and fill it out before you leave today. Additionally, forms are available at the main gate and the Tribal Administration front desk.
- The forms require some very basic information such as name, email address, and mobile number.
- Once the forms are filled out, please submit them to the front desk or Public Safety staff. The forms will be delivered and you will be added to the STARS program within 72 hours from submission by an IT Representative.
