General Project Information

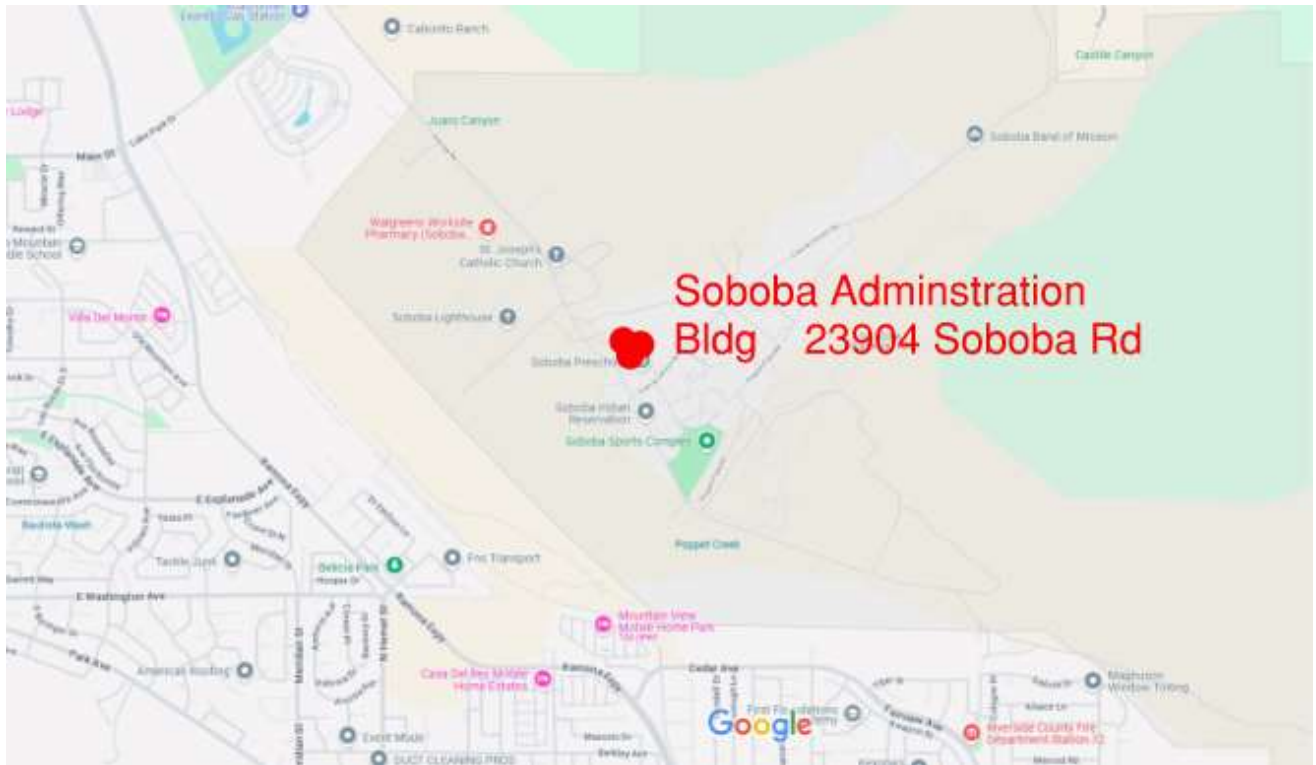

1. **Project:** Soboba Storm Water Drainage Line J & J-1
2. **Project Owner:** SOBOBA BAND OF LUISEÑO INDIANS "SBLI"
3. **Location:** Off Castile Canyon Road, San Jacinto, CA
4. **General Project Description:** The project.

Contractual Arrangements:

SBLI expects to enter into a contract with a single company (“Provider”) to perform the project staking services during the construction of the Line J & J1 Storm Water Drainage section (“Project”). This Line J-1 will tie into the Future Line J project that is being designed currently and will be out for bid in July 2025. The Provider will have sole contractual responsibility for completing the Project and paying all costs for labor, materials, equipment, supplies, and all other expenses required to deliver a complete Project as specified herein. The Provider may contract with firms acceptable to SBLI to fulfill its obligations under the contract; however, SBLI will not be a party to any such contracts. Notwithstanding anything to the contrary in this RFP, nothing shall require SBLI to enter into any contract relating to or arising from this RFP or to pursue otherwise the Project (in whole or in part).

Background:

Today, the Soboba Band of Luiseño Indians is a federally-recognized tribal government that exercises our right to self-governance and self-determination. The results of exercising these rights can be seen in both our tribal government and our business enterprises. Diversification within our many business enterprises have allowed us to support the well-being of our Tribal Members by providing a wide range of services through tribal government programs. This is seen through our Tribal Administration such as the Soboba Fire Department, Public Works, Environmental Programs, Cultural Programs and many others.

Project Construction Staking Scope of Work:

. Project Description

This project involves the installation of storm water drainage infrastructure on the Soboba Reservation in the Tribal Member residential area. Price to include but not limited to catch basins, manholes, culverts, concrete channels, storm drain pipes, outfalls, and associated grading. Construction staking will be provided to ensure accurate horizontal and vertical alignment of all features per the approved construction drawings and specifications.

2. Objectives

- To provide precise field layout and staking for storm water drainage improvements.
- To verify and document that staked locations match engineering design plans.
- To support the contractor during construction by re-staking or adjusting stakes as necessary.

3. Scope of Services

3.1 Pre-Staking Preparation

- Review approved construction plans, cross-sections, and drainage profiles.
- Attend pre-construction meeting (if required).
- Coordinate with contractor to determine sequencing and access.

3.2 Construction Staking Tasks

- Stake centerlines and offsets for:
 - Storm drain pipelines
 - Manholes and catch basins
 - Junction boxes and inlets/outlets
 - Outfall structures
 - Swales, channels, and detention basins
- Grade staking:
 - Invert elevations at critical points (inlets, outlets, manholes)
 - Top of structure elevations
 - Finish grades and slopes
- Mark stakes with lath, hubs, and labeling indicating:
 - Station and offset
 - Cut/fill to finished grade or invert
 - Structure type and identification number

3.3 Verification and Quality Assurance

- Perform QA/QC checks on initial staking
- Provide staking cut sheets with coordinates and elevations
- Coordinate any discrepancies with design engineer and contractor

3.4 Re-Staking and As-Needed Support

- Provide re-staking for any stakes disturbed during construction
- Assist contractor with layout clarification or adjustments
- Stake changes due to revised plans (may be a separate cost)

4. Deliverables

- Initial staking layout with labeled hubs/lath

- Cut sheets for each staked structure

5. Assumptions

- Survey control points (horizontal and vertical) are established and accessible.
- Construction plans are approved and provided in digital format (DWG, PDF).
- Work areas are clear of obstructions for staking access.
- No environmental or access restrictions beyond what is known.

6. Schedule

- Work to begin within 15 days of notice to proceed.
- Staking schedule to be coordinated based on contractor's construction phasing.

7. Fee Estimate

- Provide the lump sum price for the staking services
- Re-staking or out-of-scope items billed – provide billing rates

1. All proposals will be reviewed for completeness, clarity, and conformance with submittal requirements identified in the section entitled "**Proposal Submittal Requirements, Qualification Portion.**" The Proposers that satisfy these requirements shall be deemed fully qualified to perform the specific repairs listed in the Forensic report according to the specified criteria based on previous documented project experience of similar scope and design, the proposed team members, and references.
2. All qualified proposals will be reviewed for completeness, clarity, and conformance with submittal requirements identified in the section entitled "**Proposal Submittal Requirements, Bid Portion.**" The selection of the successful bidder shall be at the sole and absolute discretion of the Soboba Tribal Council & Executive Board.

Evaluation Criteria:

The SBLI will use the following criteria in evaluating proposals received in response to this RFP. The successful proposal will be submitted in response to this RFP by the submittal deadline that is the most advantageous to the Tribe. A review and selection committee composed of key government officials will evaluate proposals. The evaluation of proposals and the selection of the successful proposal will be based on the information provided by the proposer in its proposal, including, without limitation, the proposer's qualifications. Consideration may also be given to any additional information helpful to the Tribe. The Tribe is not bound to accept the lowest-priced proposal if that proposal is not the most advantageous to the Tribe as determined by the selection committee. Completeness of Proposal: Any submission that does not contain each element described in this RFP, fully completed, initialed, or executed, as appropriate, may be judged incomplete and may not be considered further.

Scoring Criteria:

- 40% Firm experience and staff
- 30% Technical approach and management plan
- 25% Proposed fee
- 5% Native Preference

Oral Presentation: At the Tribe's discretion, oral interviews may be scheduled.
