

Meeting your pharmacy needs at work.

The Soboba RX offers a full service pharmacy as well as access to experienced pharmacists who know your health plan and can help you to better understand and manage your prescription needs.

Services include:

- Fill, Refill, Transfer Prescriptions
- Convenient Location
- Generics Program
- No Drug Co-Pays
- 90-Day Fills (when available)
- Discounted Over-The-Counter (OTC) Products
- Personal Pharmacy Consultations (drug interactions, drug therapies, medication profiles and more)

We make transferring your prescription easy.

1

Simply stop by or call your Soboba Pharmacy.

2

Provide your script name or number and the transferring pharmacy name.

3

We can take it from there.

4

Tribal Members are still able to utilize R.S.B.C.I.H., Inc. for clinic services but can transfer existing or send new prescriptions to Soboba RX.

Operated by
Premise Health.

PHARMACY

The Soboba RX is...

Your Partner. Going beyond the prescription, we take time to personally meet with you to answer questions and develop a comprehensive plan for your medication treatments and overall health.

Personalized. No need to call in or manage auto-refill programs. You will receive auto text reminders when your script is filled. Through our **Script Your Care** program, all eligible prescriptions are filled at once, synchronized to a single fill date, with 90-day refills (when available).

Committed. Our dedication and exclusivity to you provides a seamless experience. We are proactive with your care and use a tailored approach to meet your unique needs.

Innovative. We use a pharmacy approach that breaks the mold of the past, being more proactive with your care and building a personal relationship with you.

Affordable. Over-The-Counter (OTC) products and medications are available at a great savings.

Why. The increased cost of pharmacy medications on the Tribe's self-insured plan continues to rise each year. The Soboba RX will allow for more convenient and customer-service based approach, at the same time, will be a huge cost savings to the Tribe overall. These cost savings will benefit Tribal Members overall through the expansion of other tribal programs.
